

SAFETY BASIS FOR INTEC TANK FARM FACILITIES		Identifier: LST-108
		Revision: 8
		Page: 1 of 2
INTEC	List	For Additional Info: http://EDMS
		Effective Date: 11/06/03
		DAR Number: <u>103845</u>

Safety Basis List for INTEC Tank Farm Facilities

1. Safety analysis documents for the INTEC Tank Farm Facilities are contained in the Safety Analysis Report (SAR), SAR addenda, the Technical Safety Requirements (TSR), and the Technical Standard listed in Table 1.
2. Hazard Category 2 per the SAR section listed in Table 1.
3. Operational Readiness Review/ Readiness Assessment documents:
 - OPE-CPP-96-064, "DOE Approval of Continued Use (Restart) of Tank Farm for Transfer of High Level Liquid Waste to the New Waste Calcining Facility," 4/16/96.
4. Other documents affecting the implementation of the facility safety basis – none.
5. Unreviewed Safety Questions-none.

SAFETY BASIS FOR INTEC TANK FARM FACILITIES	Identifier: LST-108
	Revision: 8
	Page: 2 of 2

**Table 1. Safety Analysis Documents for INTEC Tank Farm Facilities
(current revision*)**

Document Identifier	Document Title
SAR-100	INEEL Standardized Safety Analysis Report (SAR) Chapters
TSR-100	INEEL Standardized Technical Safety Requirements (TSR) Document
SAR-107	Tank Farm Facilities
SAR-107A	Tank Farm Closure Project
TSR-107	Tank Farm Facilities
INTEC-WP-03-012	DOE-ID Safety Evaluation Report Addendum – INTEC Tank Farm Facilities Update to SAR-107 (Rev 1) and TSR-107 (Rev 1); Tank Farm Closure Addendum SAR-107A (Rev 0)
PSD Section 4.2B (See Note 1 below)	Safety Assessment for the Light Duty Arm Sample Handling and Transport
TS 4.2B14 (See Note 2 below)	Technical Standard – Load Controls for ICPP High-Level Liquid Waste Tank Vaults

* A copy of the latest revision may be found at the Electronic Document Management System (EDMS) site on the INEEL intranet home page, and/or in the controlled document sets.

Note 1: PSD Section 4.2B is retained on the Safety Basis List because it hasn't been cancelled yet.

Note 2: TS 4.2B14 is retained on the Safety Basis List because it hasn't been cancelled yet. Load controls for the tank vaults are also included in SAR-107, Safety Requirement #5.
