3. Delete "AWARD FEE RATINGS METHOD" section in its entirety and replace with the following:

"AWARD FEE PERFORMANCE RATING AND FEE EARNING METHODOLOGY"

---

OUTSTANDING            95 % TO 100%

Performance exceeds expected levels of performance in all areas with only minor weaknesses or negative comments and without any deficiencies. Innovative approaches have been identified and are being implemented successfully. Management has addressed problems and issues proactively both with employees and customers as is appropriate for a multi-programmatic laboratory.

---

EXCEEDS                56% TO 94%

Performance consistently meets levels of performance and in most areas exceeds expected levels of performance. Identified weaknesses do not indicate a trend to serious, systemic problems and can be addressed in the near term without impacting operational or programmatic goals. There are no noteworthy deficiencies, operational excellence continues to be the foundation of all work activities and development of the laboratory missions continues.

---

SATISFACTORY        16% TO 55%

Performance meets expected levels of performance in the majority of areas. Identified weaknesses may indicate a trend to serious systemic problems but there has been no operational situation resulting in serious injury or fatality. Milestones are being met for the most part but there is concern for future milestones. Identified deficiencies are few and can be rectified early with appropriate management attention with minimal impact to operations and programmatic goals.

---

MARGINAL             1% TO 15%

Performance is not meeting expected levels of performance in multiple areas or serious weaknesses have been identified in critical areas. Deficiencies have been identified and recovery from weaknesses and/or deficiencies could impact programs and operations. Trending is indicating serious problems in achieving operational excellence.

---

UNSATISFACTORY     - 0 -

Performance has failed to meet expected levels of performance in critical areas with serious ramification to Departmental commitments. Deficiencies and weaknesses are numerous indicating failure of management systems. Serious safety and/or environmental violations have resulted in major impacts. Recovery will be lengthy, difficult and costly.

- e. Subparagraph (h)(3), first sentence, delete “In” and replace with “in”.
- 5. Under L.5 Instructions – Oral Presentation, paragraph (d) last sentence, after the word “include”
- 6. Under L.5 Instructions – Oral Presentation, paragraph (e) is deleted in its entirety and replaced with the following:

“(e) Location and Method of Presentation

(1) Location.

The offeror has two options for the location of the oral presentation – the Government’s facility or one of its own choosing, subject to the restrictions herein.

- (i) If the offeror elects to hold the presentation at the Government’s facility, the Government will furnish only a projection screen and whiteboard for the offeror’s use during the oral presentation. Any other supplies and equipment must be furnished by the offeror.
- (ii) If the offeror elects to provide its own facility, it must be located within a two-mile radius of downtown Idaho Falls, ID and must accommodate fifteen (15) Government attendees. Also, the offeror shall furnish any needed presentation supplies and equipment, since none will be furnished by the Government off-site.

The offeror shall notify the SEB Chairperson of its preference in writing within 24 hours after the time and date offers and other written information are due.

(2) Method of Presentation.

The Government will make a video recording (including audio) of the entire oral presentation for its own use. The offerors will not be permitted to make audio or video recordings.

- (i) Open Presentation. For the open presentation, the offeror may only use overhead, 35 mm, and/or computer generated slides. No video presentations, posters, flipcharts or wallcharts will be allowed. Materials shall be suitable for oral and visual presentation and shall be numbered such that all presented material can be tracked.
- (ii) Problem Set Presentation. The offeror may use any presentation medium it desires. The offeror must furnish its own supplies and equipment for this purpose (except if held at the Government’s facility, a projection screen and whiteboard would be Government-furnished).
- (iii) Clarification Questions. The offeror may only use a flipchart and/or a whiteboard for illustrative purposes in spontaneous response to a question. The offeror must furnish its own supplies and equipment for

7. The text of L.9 Type of Contract is deleted in its entirety and replaced with the following:  
 “The Government contemplates award of a cost reimbursement Performance-Based Management Contract with mixed fee incentives (pursuant to proposed Department of Energy Acquisition Regulation 970.15404-4-3) resulting from this solicitation.”

8. The text of L.25 Number of Awards is deleted in its entirety and replace with the following:  
 “Notwithstanding the reference at FAR 52.215-1(f)(6), the Government intends to award one contract as a result of this solicitation. It should be noted that the Government intends to award a separate cost reimbursement (no fee) contract for transition activities to the successful offeror.”

PART III – LIST OF DOCUMENTS, EXHIBITS AND OTHER ATTACHMENTS  
 SECTION J – LIST OF ATTACHMENTS  
**ATTACHMENT K – LIST OF APPLICABLE LAWS AND REGULATIONS (LIST A)**

The List of the Applicable Laws and Regulations (List A) for the Idaho National Engineering and Environmental Laboratory (INEEL) has been developed in accordance with DEAR 970.5204-78, *Laws, Regulations, and DOE Directives (June 1997)*.

In accordance with DEAR 970.5204-78, List A is appended to this contract for information, and omission of any applicable law or regulation from List A does not affect the obligation of the contractor to comply with such law or regulation pursuant to the terms of the contract. List A is a compilation, for information, of the major laws and regulations, major permits, and major agreements with regulators applicable to work performed under the terms and conditions of this contract.

Executive Orders are not included in List A. Direction contained in Executive Orders that affect performance of work under Department of Energy Contracts is normally assimilated into appropriate laws and regulations, which include the Federal and Department of Energy Acquisition Regulations. The Department Procurement Executive may, on a case basis, issue direction in the form of Procurement Letters directing specific implementation actions based on Executive Orders.

The contractor shall make recommendations annually for update to List A in conjunction with the annual update to the Safety Management System Description Document as discussed in DEAR 970-5204-2, *Integration of Environment, Safety, and Health into Work Planning and Execution (June 1997)*.
