* **CLARIFICATIONS:**

Clarification for DOE O 350.1:

CRD, Chapter IV, Item 6: Appendix A of Contract No. DE-AC07-99ID13727 adequately covers the area of overtime reporting and management requirements and supersedes this section of DOE O 350.1.

Clarification for DOE O 481.1 and DOE M 481.1-1:

For implementation of these Directives, Intercompany Work Transfers (IWTs) are not within the scope of Work for Others (WFO).

Clarification for DOE N 441.1:

- DOE N 441.1, Section 2(d) states, "Cancellation of DOE N 5480.11, Extension of Radiological Control Manual, revision 1 (DOE Radiological Control Manual (DOE/EH-0256T) remains as guidance)."

DOE-ID clarification: The DOE Radiological Control Manual (RCM) will remain contractually enforceable. Modifications to the INEEL Radiological Control Manual that result from conflicts due to transition to this Notice must be provided to the ID Radiological Control Manager for prior approval. RCM changes shall be provided for the DOE-ID Radiological Control Manager within 6 months of the contract modification.

- DOE N 441.1, Section 6.a.(3) states, "A facility-specific ACL shall be approved each year by facility management to maintain radiological worker doses below the DOE ACL. Written authorization by facility management shall be required prior to allowing any radiological worker's dose resulting from planned activities to exceed the facility-specific ACL."

DOE-ID clarification: "Facility-specific" as used in this section means the INEEL. "Facility management" as used in this section means the Contractor's senior management official and the DOE-ID Manager.

- DOE N 441.1, Section 6.c.1 states, "Radiation safety training for general employees, radiological workers, and radiological control technicians shall utilize those portions of the standardized core training materials published by DOE that are relevant to facility hazards and operations,

PART III – LIST OF DOCUMENTS, EXHIBITS AND OTHER ATTACHMENTS
 SECTION J – LIST OF ATTACHMENTS
ATTACHMENT G - LIST OF APPLICABLE DIRECTIVES (List B)

NUMBER	SUBJECT	DATED
--------	---------	-------

augmented as necessary by site-specific material. Documentation of satisfactory completion of the entire DOE standardized core course(s) shall be accepted by all DOE activities."

DOE-ID clarification: The INEEL may accept completed DOE core radiological training for general employees, radiological workers, and radiological control technicians from non-INEEL sources provided that auditable records are kept to document the basis for acceptance. The INEEL radiological training should be consistent with the guidance in the INEEL Radiological Control Manual.

- DOE N 441.1, Section 6.d. states, "Any accessible area in which radioactive material is used, handled, or stored shall be posted with the words "Caution, Radioactive Material." The posting shall meet the requirements of 10 CFR 835.601. The following areas are exempt for this posting requirement:

DOE-ID clarification: "Accessible" as used in this section means any portion of the body.

- RCM 231.6 states, "If more than one radiological condition (such as contamination, and high radiation) exists in the same area, each condition should be identified."

DOE-ID clarification: For article RCM 231.6 add, "Postings with the words 'Caution Radioactive Material' are not required for: areas posted as a radiological area in accordance with 10 CFR 835.603; other areas posted with radiological warning signs meeting the criteria established in 10 CAR 835.601; areas containing radioactive materials in quantities below that which is likely to cause any individual to receive a TEDE in excess of 0.1 rem in a year."

- RCM 431.1 states, "DOE N 5400.9 describes how sealed (extended by DOE N 5400.10) radioactive sources shall be controlled and maintained, and specifies requirements for receipt, inventory, storage, transfer, disposal and integrity testing."

DOE-ID clarification: Change to read "DOE N 441.1 describes how sealed..."

- Other necessary modifications to the RCM as a result of implementation of this Notice are to be performed by the Contractor and provided to the DOE-ID Radiological Control Manager for prior approval.
