The purpose of this modification is to extend the contract period of performance through September 30, 2015, modify the Statement of Work, and incorporate contract changes as noted below. These revisions are being made under the authority of, and pursuant to, the public interest exception contained at 41 U.S.C Section 3304(a)(7) and Federal Acquisition Regulation 6.302-7 and by mutual agreement of the parties.

The following changes are hereby made to the contract:

SECTION B, SUPPLIES OR SERVICES AND PRICES/COSTS is amended as follows:

A revised Section B is hereby incorporated and included as an attachment to this modification.

SECTION C, DESCRIPTION/SPECIFICATIONS/STATEMENT OF WORK is amended as follows:

A revised Statement of Work is hereby incorporated and included as an attachment to this modification.

SECTION F, DELIVERIES OR PERFORMANCE is amended as follows:

Section F.3 (a) is revised to extend the contract period of performance through September 30, 2015. The revised paragraph is as follows:

“The term of this contract is from the effective date of contract award through September 30, 2015, which is the target date for completion of the work consistent with clause B.14, Total Contract Target Cost, Fee, and Completion Date.”

SECTION G, CONTRACT ADMINISTRATIVE DATA is amended as follows:

Section G.7 (3) Billing Instructions is revised and reads as follows:

- (3) One copy of the invoice, with supporting detail shall be submitted electronically to James R. Cooper, Contracting Officer's Representative (COR), at: cooperjr@id.doe.gov

SECTION H, SPECIAL CONTRACT REQUIREMENTS is amended as follows:

Section H.1 *Project Control Systems and Reporting Requirements* is hereby incorporated and included as an attachment to this modification.

Section H.2 (a) *Programmatic Risks and Uncertainties* is revised as follows:

Previous text:

- (a) Completion of this project will require DOE and the contractor to successfully identify, analyze, resolve, mitigate, eliminate or avoid many types of risk. Risks to the worker, the public and the environment are managed through the Integrated Safety Management System (ISMS) and Environmental Safety and Health Program (ES&H) identified in Section C. Risks to project schedule and cost are classified as programmatic risk and shall be managed through the Programmatic Risk Management process within the Project Management System specified by DOE Order 413.3. The contractor's initial risk management plan, submitted with its proposal per Section L.3(b)(1)(ii), shall be updated and submitted for DOE review and approval within 90 days after contract award and annually thereafter. Because this contract is performance-based, the contractor may use any means available to eliminate, avoid or mitigate risks, including the use of cost or schedule contingency. Failure on the part of the contractor to eliminate, avoid or mitigate risks constitutes changes for which the contractor is accountable. The contractor agrees that these changes shall not constitute a change to the Target Cost per Section B.10, Table B.2. The contractor's risk management plan shall address, as a minimum, the elements listed below in H.2(b-g) and Table H-1.

The contractor's risk management plan shall address, as a minimum, the elements listed below in H.2(b-f).

Section H.2 (d) *Programmatic Risks and Uncertainties* is revised as follows:

Previous Text:

- (d) If the contractor pursues alternative approaches to existing regulatory agreements or commitments, or to more efficiently achieve risk reduction end states, the contractor shall specify a confidence level for obtaining regulatory approval and a risk mitigation strategy, in the event regulatory approval is not obtained. Contractor proposed end states for both high-risk facilities disposition and CERCLA remediations (without currently approved RODs) are subject to regulatory approval, as required. If the regulator approves an end state different from the contractor proposed end state, the contractor shall meet the regulatory approved end state and the difference in end states shall not constitute a change under the changes clause nor form the basis for an equitable adjustment to the Target Cost per Section B.10(b).

Section H.4 *Government Furnished Services/Items (GFSI)* is hereby incorporated and included as an attachment to this modification.

Section H.21 (c) (4) *INEEL Site Stabilization Agreement (SSA) and INEEL Site Constructional Jurisdictional Procedural Agreement (SJA)* is hereby removed from the contract.

SECTION I, CONTRACT CLAUSES is amended as follows:

The following clauses are hereby incorporated into the existing contract:

FAR Clauses

Section I.147 52.204-9 Personal Identity Verification of Contractor Personnel (Jan 2011)

(a) The Contractor shall comply with agency personal identity verification procedures identified in the contract that implement Homeland Security Presidential Directive-12 (HSPD-12), Office of Management and Budget (OMB) guidance M-05-24, and Federal Information Processing Standards Publication (FIPS PUB) Number 201.

(b) The Contractor shall account for all forms of Government-provided identification issued to the Contractor employees in connection with performance under this contract. The Contractor shall return such identification to the issuing agency at the earliest of any of the following, unless otherwise determined by the Government;

- (1) When no longer needed for contract performance.
- (2) Upon completion of the Contractor employee's employment.
- (3) Upon contract completion or termination.

(c) The Contracting Officer may delay final payment under a contract if the Contractor fails to comply with these requirements.

(d) The Contractor shall insert the substance of clause, including this paragraph (d), in all subcontracts when the subcontractor's employees are required to have routine physical access to a Federally-controlled facility and/or routine access to a Federally-controlled information system. It shall be the responsibility of the prime Contractor to return such identification to the issuing agency in accordance with the terms set forth in paragraph (b) of this section, unless otherwise approved in writing by the Contracting Officer.

Section I.148 52.223-2 Affirmative Procurement of Biobased Products Under Service and Construction Contracts (July 2012)

(a) In the performance of this contract, the contractor shall make maximum use of biobased products that are United States Department of Agriculture (USDA)-designated items unless—

- (1) The product cannot be acquired—
 - (i) Competitively within a time frame providing for compliance with the contract performance schedule;
 - (ii) Meeting contract performance requirements; or
 - (iii) At a reasonable price.

(2) The product is to be used in an application covered by a USDA categorical exemption (see 7 CFR 3201.3(e)). For example, all USDA-designated items are exempt from the preferred procurement requirement for the following:

(i) Spacecraft system and launch support equipment.

(ii) Military equipment, i.e., a product or system designed or procured for combat or combat-related missions.

(b) Information about this requirement and these products is available at <http://www.biopreferred.gov>.

(c) In the performance of this contract, the Contractor shall—

(1) Report to the environmental point of contract identified in paragraph (d) of this clause, with a copy to the Contracting Officer, on the product types and dollar value of any USDA-designated biobased products purchased by the Contractor during the previous Government fiscal year, between October 1 and September 30;

(2) Submit this report not later than—

(i) October 31 of each year during contract performance; and

(ii) At the end of contract performance; and

(3) Contact the environmental point of contact to obtain the preferred submittal format, if that format is not specified in this contract.

(d) The environmental point of contact for this contract is:

Section I.149 52.223-15 Energy Efficiency in Energy-Consuming Products (Dec 2007)

a) Definition. As used in this clause--

“Energy-efficient product”—

(1) Means a product that—

(i) Meets Department of Energy and Environmental Protection Agency criteria for use of the Energy Star trademark label; or

(ii) Is in the upper 25 percent of efficiency for all similar products as designated by the Department of Energy's Federal Energy Management Program.

(2) The term "product" does not include any energy-consuming product or system designed or procured for combat or combat-related missions (42 U.S.C. 8259b).

(b) The Contractor shall ensure that energy-consuming products are energy efficient products (i.e., ENERGY STAR® products or FEMP-designated products) at the time of contract award, for products that are—

(1) Delivered;

(2) Acquired by the Contractor for use in performing services at a Federally-controlled facility;

(3) Furnished by the Contractor for use by the Government; or

(4) Specified in the design of a building or work, or incorporated during its construction, renovation, or maintenance.

(c) The requirements of paragraph (b) apply to the Contractor (including any subcontractor) unless—

(1) The energy-consuming product is not listed in the ENERGY STAR® Program or FEMP; or

(2) Otherwise approved in writing by the Contracting Officer.

(d) Information about these products is available for—

(1) ENERGY STAR® at <http://www.energystar.gov/products>; and

(2) FEMP at http://www1.eere.energy.gov/femp/procurement/eep_requirements.html.

Section I.150 52.223-16 IEEE 1680 Standard for the Environmental Assessment of Personal Computer Products (Dec 2007)

(a) Definitions. As used in this clause—

“Computer monitor” means a video display unit used with a computer.

“Desktop computer” means a computer designed for use on a desk or table.

“Notebook computer means a portable-style or laptop-style computer system.

“Personal computer product” means a notebook computer, a desktop computer, or a computer monitor, and any peripheral equipment that is integral to the operation of such items. For example, the desktop computer together with the keyboard, the mouse, and the power cord would be a personal computer product. Printers, copiers, and fax machines are not included in peripheral equipment, as used in this definition.

(b) Under this contract, the Contractor shall deliver, furnish for Government use, or furnish for contractor use at a Government-owned facility, only personal computer products that at the time of submission of proposals were EPEAT Bronze registered or higher. Bronze is the first level discussed in clause 1.4 of the IEEE 1680 Standard for the Environmental Assessment of Personal Computer Products.

(c) For information about the standard, see <http://www.epeat.net> .

Section I.151 52.223-17 Affirmative Procurement of EPA-designated Items in Service and Construction Contracts (May 2008)

(a) In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA-designated items unless the product cannot be acquired—

- (1) Competitively within a timeframe providing for compliance with the contract performance schedule;
- (2) Meeting contract performance requirements; or
- (3) At a reasonable price.

(b) Information about this requirement is available at EPA’s Comprehensive Procurement Guidelines web site, <http://www.epa.gov/cpg/> . The list of EPA-designate items is available at <http://www.epa.gov/cpg/products.htm> .

DEAR Clause

The following DEAR clause is hereby incorporated into the contract:

Section I.152 952.223-78 Sustainable Acquisition Program

(a) Pursuant to Executive Order 13423, Strengthening Federal Environmental, Energy and Transportation Management, and Executive Order 13514, Federal Leadership in Environmental, Energy, and Economic Performance, the Department of Energy (DOE) is committed to managing its facilities in an environmentally preferable and sustainable manner that will promote the natural environment and protect the health and well being of its Federal employees and

contractor service providers. In the performance of work under this contract, the Contractor shall provide its services in a manner that promotes the natural environment, reduces greenhouse gas emissions and protects the health and well being of Federal employees, contract service providers and visitors using the facility.

(b) Green purchasing or sustainable acquisition has several interacting initiatives. The Contractor must comply with initiatives that are current as of the contract award date. DOE may require compliance with revised initiatives from time to time. The Contractor may request an equitable adjustment to the terms of its contract using the procedures in the Changes clause of the contract. The initiatives important to these Orders are explained on the following Government or Industry Internet Sites:

- (1) Recycled Content Products are described at <http://epa.gov/cpg>
- (2) Biobased Products are described at <http://www.biopreferred.gov/>
- (3) Energy efficient products are at <http://energystar.gov/products> for Energy Star products
- (4) Energy efficient products are at <http://www.femp.energy.gov/procurement> for FEMP designated products
- (5) Environmentally preferable and energy efficient electronics including desktop computers, laptops and monitors are at <http://www.epeat.net> the Electronic Products Environmental Assessment Tool (EPEAT) the Green Electronics Council site
- (6) Green house gas emission inventories are required, including Scope 3 emissions which include contractor emissions. These are discussed at Section 13 of Executive Order 13514 which can be found at <http://www.archives.gov/federal-register/executive-orders/disposition.html>
- (7) Non-Ozone Depleting Alternative Products are at <http://www.epa.gov/ozone/strathome.html>
- (8) Water efficient plumbing products are at <http://epa.gov/watersense>.

(c) The clauses at FAR 52.223-2, Affirmative Procurement of Biobased Products under Service and Construction Contracts, 52.223-15, Energy Efficiency in Energy Consuming Products, and 52.223-17 Affirmative Procurement of EPA-Designated Items in Service and Construction Contracts, require the use of products that have biobased content, are energy efficient, or have recycled content. To the extent that the services provided by the Contractor require provision of any of the above types of products, the Contractor must provide the energy efficient and environmentally sustainable type of product unless that type of product—

- (1) Is not available;

(2) Is not life cycle cost effective or does not exceed 110% of the price of alternative items if life cycle cost data is unavailable (EPEAT is an example of lifecycle costs that have been analyzed by DOE and found to be acceptable at the silver and gold level);

(3) Does not meet performance needs; or,

(4) Cannot be delivered in time to meet a critical need.

(d) In the performance of this contract, the Contractor shall comply with the requirements of Executive Order 13423, Strengthening Federal Environmental, Energy and Transportation Management, (<http://www.epa.gov/greeningepa/practices/eo13423.htm>) and Executive Order 13514, Federal Leadership in Environmental, Energy, and Economic Performance (<http://www.archives.gov/federal-register/executive-orders/disposition.html>). The Contractor shall also consider the best practices within the DOE Acquisition Guide, Chapter 23, Acquisition Considerations Regarding Federal Leadership in Environmental, Energy, and Economic Performance. This guide includes information concerning recycled content products, biobased products, energy efficient products, water efficient products, alternative fuels and vehicles, non ozone depleting substances and other environmentally preferable products and services. This guide is available on the Internet at:

<http://management.energy.gov/documents/AcqGuide23pt0Rev1.pdf>.

(e) Contractors must establish and maintain a documented energy management program which includes requirements for energy and water efficient equipment, EnergyStar or WaterSense, as applicable and procedures for verification of purchases, following the criteria in DOE Order 430.2B, Departmental Energy, Renewable Energy, and Transportation Management, Attachment 1, or its successor to the extent required elsewhere in the contract. This requirement should not be flowed down to subcontractors.

(f) In complying with the requirements of paragraph (c) of this clause, the Contractor(s) shall coordinate its activities with and submit required reports through the Environmental Sustainability Coordinator or equivalent position. Reporting under this paragraph and paragraphs (g) and (h) of this clause is only required if the contract or subcontract offers subcontracting opportunities for energy efficient and environmentally sustainable products or services exceeding \$100,000 in any contract year.

(g) The Contractor shall prepare and submit performance reports, if required, using prescribed DOE formats, at the end of the Federal fiscal year, on matters related to the acquisition of environmentally preferable and sustainable products and services. This is a material delivery under the contract. Failure to perform this requirement may be considered a failure that endangers performance of this contract and may result in termination for default.

(h) These provisions shall be flowed down only to first tier subcontracts exceeding the simplified acquisition threshold that support operation of the DOE facility and offer significant subcontracting opportunities for energy efficient or environmentally sustainable products or services. The Subcontractor, if subcontracting opportunities for sustainable and environmentally preferable products or services exceed the threshold in paragraph (f) of this clause, will comply

with the procedures in paragraphs (c) through (f) of this clause regarding the collection of all data necessary to generate the reports required under paragraphs (c) through (f) of this clause, and submit the reports directly to the Prime Contractor's Environmental Sustainability Coordinator at the supported facility. The Subcontractor will advise the Contractor if it is unable to procure energy efficient and environmentally sustainable items and cite which of the reasons in paragraph (c) of this clause apply. The reports may be submitted at the conclusion of the subcontract term provided that the subcontract delivery term is not multi-year in nature. If the delivery term is multi-year, the Subcontractor shall report its accomplishments for each Federal fiscal year in a manner and at a time or times acceptable to both parties. Failure to comply with these reporting requirements may be considered a breach of contract with attendant consequences.

(i) When this clause is used in a subcontract, the word "Contractor" will be understood to mean "Subcontractor."

SECTION J, LIST OF ATTACHMENTS is amended as follows:

A revised Attachment A – *Acronyms* is hereby incorporated. The revised document has been included as an attachment to this modification.

A revised Attachment B – *List of Applicable DOE Directives (List B)* is hereby incorporated. The revised document has been included as an attachment to this modification.

The revised List B contains the following revised DOE Directives:

DOE Directives Added:

- DOE O 205.1B, Department of Energy Cyber Security Management Program
- DOE O 210.2A, DOE Corporate Operating Experience Program
- DOE O 225.1B, Accident Investigations
