**3rd Quarter Fiscal Year 2013 Fee Determination**

CH2M♦WG Idaho, LLC (CWI's) fee request dated July 2, 2013 covers the period April 01, 2013, through June 30, 2013. The contract is a Cost plus Incentive Fee (CPIF) contract using cost and schedule as a performance measure vs. a Performance Evaluation Management Plan (PEMP). The proposed provisional amount of fee requested is \$2,255,310.

The contract extension has three Contract Line Items (CLINs). CLIN A has no fee associated with it and CLIN B is based on milestone completion. Therefore, the contractor has requested provisional fee for only CLIN C which is the balance of the ICP. Per contract modification 252, the total contract target cost and target fee are based on a period of performance from October 1, 2012, through September 30, 2015. Through June 2013, the target cost is \$484,100,298 and target fee is \$35,629,781, with a maximum fee of \$72,615,045. Incentive fee is based on a 70/30 cost share ratio. There is also a schedule fee penalty in the contract.

In addition, the quarterly provisional fee is adjusted by five percent (\$118,766) for the Conditional Payment of Fee (CPOF) directed by the Department of Energy Idaho Operations (DOE-ID) on May 13, 2013 (AS-CMD-ICP/CWI-13-075).
