**Part III Section J, Attachment H
 Property Lists**

The attachments contain lists of real and personal property located at the ANL-W and INEEL that are assigned to NE as the Lead Program Secretarial Office. Some changes to these listings may occur as a result of routine asset disposition or reassignment prior to 2005, however, major changes are not expected. A significant quantity of administratively controlled property (e.g., office furniture, etc.) not included in these listings exists in the facilities the INL contractor will assume.
