**Part III Section J, Attachment F**

**Tenant Agreements**

**INTRODUCTION**

The Cost tables included in Attachment F-1 provide the estimated budget allocation to be recovered from NRF, USGS, NOAA, Stoller, and BNFL for services provided in FY 2004. Section J, Attachments F-2 through F-8 include copies of the tenant agreements that require INL Contractor interface and services. Section J, Attachment F-6 provides a summary of the services to be provided by the INL Contractor to the ICP tenant along with the amount of funding EM will provide for those services in FY 2005. The INL Contractor shall provide the services and interfaces to all tenants in accordance with the agreements included in this section. The DOE prime contract with BNFL (identified in Attachment F-7) establishes the price for services BNFL will receive from the INL.
